

Make plans to attend the

Public Availability Session and Public Meetings

About the Lawrence Livermore National Laboratory (LLNL)

The Agency for Toxic Substances and Disease Registry (ATSDR), a federal public health agency, is hosting a public availability session. At this session, representatives will be available to hear your public health concerns related to contaminants from the LLNL site. Community health concerns are evaluated as part of the public health assessment. *Conversations will be confidential.*

Public Availability Session

When: Tuesday, February 18, 2003
5:00pm - 7:00pm

Where: Arroyo Royal Seco School
5280 Irene Way
Livermore, CA

Public Meeting
